Mobile Application developer with nearly 10 years of experience building and maintaining mobile applications. Skilled in Java and Kotlin, Swift and Objective-C, JavaScript with React Native, API and payment integrations, and collaborating with design, QA, and Agile teams to deliver reliable features.

Experience

Jan 15, 2024 - current

Mid-Level Android Developer
Serino Systems Inc.

-Develop and maintain Android payment applications, following coding standards and best practices.
-Build payment flows using Java and JavaScript, including communication between native -Android services and WebView interfaces.
-Support POS/ECR integrations, EMV processing, and host authorization across standalone and integrated payment modes.
-Integrate systems using JSON, TCP/IP, USB/serial communication, and Android AIDL; handle callbacks, timeouts, and errors.
-Applied localization techniques to support multiple languages in the app.
-Managed project dependencies and builds using Gradle.
-Use GitHub Copilot to assist with debugging and feature development, reviewing suggestions before applying them.

February 14, 2022- August 4, 2023

Android Developer
Collabera® Digital

-Developed and maintained features for a digital banking app, including in-app account opening, ID and selfie verification, card controls, savings goals, and expense tracking.
-Supported account integrations, including legacy Citi-branded accounts, and updated the UI/UX design based on client feedback.
-Collaborated with designers and testers to deliver functional, user-friendly app experiences.
-Wrote front-end unit tests to support code coverage requirements.

October 2, 2017 – February 7, 2022

Programmer I / Android Developer
Zynappse Corporation

-Built and maintained Android apps with database, Google Maps, authentication, and server integrations.
-Developed membership app features for points and tier tracking, digital vouchers, property information, and live chat support.
-Leveraged Android Jetpack components to streamline app development.
-Created responsive day and night interfaces and contributed to iOS development. Delivered and tested app features in collaboration with the wider development team.
